Press Release

Susanne Kaufmann™ Obsidian Face Roller

Susanne Kaufmann™ introduces the NEW! Obsidian Face Roller, handcrafted in the Bregenzerwald in Austria. The Obsidian Face Rollers are crafted by skilled, local artisans and are consciously made from locally-sourced materials, personally selected by Susanne Kaufmann.

Designed by Susanne's brother, renowned architect Oskar Leo Kaufmann, the Obsidian Face Roller features black Obsidian stone from South Tyrol. The delicate handle is cut from fine nut wood and the steel mount was designed by expert blacksmith and metal specialist Felder in Andelsbuch, only minutes away from the Hotel Post in Bezaú.

In traditional medicine, obsidian stone is known for its healing properties. The stone helps relieve muscle inflammation, strengthen the connective tissue, and aid the body to better absorb vitamin C and D. In addition to its physical effects, the Obsidian stone can also demonstrate energetic properties by enhancing the flow of life energy, as existing blockages are released.

The Obsidian Face Roller is used in most Susanne Kaufmann spa treatments. The massaging effect of the cool stone helps stimulate blood circulation as well as the metabolic processes in the skin. It also encourages lymphatic flow, and puffiness around the eye area is visibly reduced. The stone calms the skin, and as a result, pores contract and the complexion is refined. The result is firm, glowing and healthy looking skin.

Press Release

Our tip: When using the Obsidian Face Roller at home, always place it in the center of the face and stroke / roll horizontally outwards. To treat the area around the eyes, place the roller under the eye next to the bridge of the nose and roll it horizontally towards the temple. For a rapid reduction of swelling around the eye area or for a small "emergency treatment" put the roller in the refrigerator for a few hours before use.

We recommend to use the face roller especially for the Pollution Skin Defense System: Open the appropriate ampoule, apply it onto the skin and gently massage in. Use the roller to merge the remaining serum into the skin along the meridians to stimulate them parallel to the active ingredient intake. Also suitable: Nutrient Concentrate skin smoothing, Hyaluron serum moisturizing, Active Agent Concentrate Couperose and Intensive Power Serum Line A.

Cleaning

To clean the roller, we recommend using lukewarm water.

Material

Obsidian Stone, Walnut wood and black steel
